### **Democracy and Diversity**

**Q.1** Discuss three factors that determine the outcomes of politics of social divisions.

**Ans.:** The three factors which are essential in deciding the outcomes of politics of social divisions are:

a) **People's perception:** This is one of the most important factor as it decides the outcomes of politics of social divisions. It is also very important to see people perceiving their identities. This also helps them to stay together.

b) **Representation of a community:** Many political leaders represent a community and constitutionally raise their demands which make it easy to accommodate.

c) **Government's reaction to such demands:** The outcome of politics of social divisions also depends upon how the government responds to demands of various social groups. Also if the reasonable demands of a community are suppressed by the government then it leads to division in the society

**Q.2** When does a social difference become a social division?

**Ans.:** When one kind of social difference becomes more important than the other and people start feeling that they belong to different communities then this social difference leads to social division. Also, when social difference leads to exclusionist approach among people it leads to social division.

Q.3 How do social divisions affect politics? Give two examples.

Ans.: Social divisions affect politics both in negative as well as positive way. These are:

Negative Impact: In a democratic country like India there is competition between various political parties and this competition sometimes tends to divide different social groups and society.

e.g.: Northern Ireland of the United Kingdom have been for many years, the site of a violent and bitter ethno-political conflict. Its population is divided into two major sections of Christianity- 53% Protestants and 44% Catholics. Catholics were represented by the Nationalist parties who demanded Northern Ireland to be unified with the Republic of the Unionist who wanted to remain with UK, which is predominantly protestant. Hundreds of civilians and militants were killed in the fight between Unionists and Nationalists.

Positive Impact: In politics every decision does not have its negative impact. In democracy it is only natural that political parties would talk about social divisions, make different promises to different communities, look after due representation of various communities and policies to redress the grievances of disadvantaged communities

“I have a dream that my four little children will one day live in a nation where they will not be judged by the colour of their skin but by the content of their character. Let freedom ring. And when this happens, and when we allow freedom ring-when we let it ring from every village and every hamlet, from every state and every city, we will be able to speed up that day when all of God’s children-black men and white men, jews and Gentiles, Protestants and Catholics-will be able to join hands and sing in the words of the old Negro spiritual: ‘Free at last! Thank God Almighty, we are free at last!’ I have a dream that one day this nation will rise up and live out the true meaning of this creed: ‘we hold these truths to be self-evident: That all men are created equal’.”

**Ans.:**

In this passage Rev. Martin Luther King Jr. is talking about racism in USA. He is referring to the segregation policies adopted by the Whites towards the colored people. He hopes that one day the freedom ring will ring. He has also a dream that his four children will rule the nation one day and they will not be discriminated on the basis of their skin color.

Yes, there is also a relationship between his speech and Mexico Olympics as in both the cases there is racial discrimination.
